- 2215** ★○☒ **British Commonwealth, a Small Safety Deposit Clearing of Stamps and Postal History.** "Small is beautiful". A wonderful range of material housed in over 2 dozen stockcards, representing a small safety deposit that has just been cleared in its entirety - no description can do justice to this very diverse and fascinating range of material. However we noted for example, Great Britain and the iconic £1 lilac plate brown watermark anchor well centred, lightly used cat £15,750 as such, SG #136, signed twice on reverse, highly attractive with Folkstone cds July 27th 1883 postmark, good colour, good perfs, possible very minor crease ironed out, mentioned for accuracy's sake only. Then a familiar item of postal history of GB, a very attractive 8d rate, formed by 4x 1840 2d blues, each one 4 margined, all with Maltese cross with 3 of the 4 also neatly tied by red ship letter crown oval hand postmark, September 11th 1840. The cover is sent to New York having originated from Great Malvern, Worcestershire England. Very beautiful, one of the earliest covers bearing the first postage stamps of the world, as incoming mail to the US, the cover probably has been improved in our opinion, not detracting from its exceptional scarcity. Also seen, a good-looking pair of the two 2/6d QV high value pair with perfin, cds cancels, crayon on left hand stamp and much more good GB. Then on to Hong Kong with the key top value EDV11 the \$10 slate and orange with concentric circle registered cancels juxtaposed with receiving red cancel at top, watermark crown CA SG#76 cat £425. More BC with British Bechuanaland key 19th century high value the £5 purple QV, SG type 5 #21, cat £1,700 watermark orbs, postally used with light bared oval 55 cancel, superb. Also seen, some India with partial booklet of 1/2 anna red 1915 Madras War Fund with 18 examples out of a potential 24, of which 16 are in regular booklet panes of 4 and then a pair. Just to see a single 1/2 anna Madras War Fund is good, yet a 3/4 filled booklet in pristine condition extraordinary. Then further postal history with India 1/2 anna blue, internal usage from Madras to Clatacenmund, a company letter with double oval purple "Faciolle & Co" strike to left, with Madras postmark Dec 10th 1870 to left of stamp and blue rectangular STAMPED postmark juxtaposed over stamp, accompanied by fancy TOO LATE, resulting in its delivery on Dec 12th with cds double concentric circle arrival mark, etc, etc. These are just but a few of the choice items here in this impressive holding, not to mention the equally impressive non-GB/British Commonwealth items such as Hungary blocks of 4 zeppelins complete mint, never hinged, Thrid Reich 1935 trains complete to 40pf purple mint, much Spain and Colonies, etc, etc. Unfortunately we simply do not have the time or space to give most items any description, as they deserve. Please therefore study the scans carefully to get a flavor of this remarkable holding. An outstanding group.

- 2251** ☒ **Monaco, One of a Kind Postal History Collection.** An outstanding collection of several dozen items nearly all from pre-philatelic to the 1920s, making this an exceptionally attractive range, housed in one packed volume, with the one later exception being Rainer/Grace signatures on cover. There is a wonderful range of single frankings on the first Charles III issues of 1885 with two superb covers each on the 25cts green (#6), 40cts slate on rose (#7) and scarce 75cts black on rose (#8), with total Scott retail \$3,800 on these six items alone and all in exceptional quality. Then the 1891/1921 Albert I issues with excellent commercial usages with highlights including the 1fr black on yellow single franking on beautiful cover to Bavaria (#26, listed but unpriced in Scott for single franking), followed by a highly unusual mixed franking of five different Albert values to 15cts applied en route from Germany to Belgium on slightly battered 10pf red "reichspost" letter card with additional stamps of Germany (placed to seal the card) and Belgium (on reverse) accompanied by cds cancels of 1898 from Germany, Monaco and Belgium - a genuine franking with manuscript cancels on the German and Monaco denominations and endorsement in the same hand (which may shed some light on this extraordinary usage). The Albert I frankings continue with tricolor 5cts green stationery envelope with 40cts and 50cts registered to Berlin 1896, another 1fr black on yellow with 2x 5cts green registered to Austria, the 25cts blue pair (#21) with interpanneau number 4 alone on registered and censored cover to Switzerland 1918, also the 25cts green (#20) single usage on illustrated cover of the Hotel Metropole, followed by attractive small philatelic cover with ten different values including 1fr and 5fr dark green, as well as a good range of 1891/1921 issues used to uprate postal stationery including "taxe reduite" surcharges. Among the latter is also the scarce surcharge on 15cts carmine envelope. Other good postal stationery includes the 1890 Charles III 15cts carmine on greenish blue envelope commercially uprated with Albert issues in 1914 to Germany, Prince Louis II 40cts blue postcard uprated with 25cts red on yellow interpanneau number 7 pair and 1928 Louis II 90cts red used to Milan, as well as Austria 10h pink used from Monaco in 1905 and 1925 1ct arms newspaper wrapper used to Kenya. Another good area is postage due covers, with first issues including 10cts rose (#J3), key 10cts brown on uprated Hungarian letter card (#J4), the 20cts bistre strip of 3 (#J6), the 30cts blue (#J7) on two covers including registered from Tunisia, the 50cts brown x2 on redirected cover 1908 (#J9), 50cts green (#J10), etc, etc. Postal history collections of this caliber are hardly ever available on the market today and many of the items here are particularly scarce and valuable, the majority on decades-old auction cards with realisations then of over \$100 each. a highly recommended viewing.

- 2283** ○ **Bolivia, a Highly Specialised 19th Century Postmark Collection.** An important collection of 19th century cancels, many 100s of stamps neatly organised on quadrille album pages. This reflects over 20 years of collecting these issues, specifically for the beauty of the cancels, quality is far better than normally encountered and some of the album pages are simply stunning. Starting off with the more obvious Paz straight lines including red and blue, followed by leaf and similar wedge cancels, again in different colors through to various cds including Santa Cruz in oval as well as concentric cancel and of course the early straight line cancels on the 1870s issue etc. A similar pattern unfolds on the 1897s including high value 2 bol superb used (Scott #54) and many others from that series. Then the collection goes back to various segment cancels on the Coat of Arms types, geometric, crosses, lozenges, diamonds, straight line, ovals, etc. Many pages are replete with material with no room left. There is so much here for the specialist to enjoy, especially bearing in mind the tip top condition. Other parts of the collection include a section for specialised postmarks for various different towns and villages, eg Arequipa, Cochabamba, Cotagaita, Oruro with many different types of cancels though to bisect, Panza, Potosi again through to bisect, Poupo, Sorata, Store, Sucre, Triirija, Tupiza, Uyuni, Yacuiba to name but a few. Some of the many fancy cancels are also on bisects on piece, there are also very attractive negative cancels, certificado cancels, Bolivia used abroad, ambulante, etc. A truly lovely range of postmarks, the likes of which are hardly ever available today offered as a collection. An opportunity not to be missed for the specialist.

A similar pattern with West Germany including with a good range of the better late 1940s early 1950s, through to the modern era, Eurozone. Also German Empire of course in the second album with 20 shields, followed by the pfennige and pfennigs complete to the 50pf including different shades, then lots of Germanias, the Reichsposts both peacetime and war time printings and page after page of the Weimar Republic, through to Third Reich and good semi-postals with Wagner complete and lots of other good series complete to the 40pf purples, as well as an excellent range of allied occupations well worth spending time on with a Michel. The collection ends with German colonies including post offices in China, various different overprints to high values and further good material with POs in Morocco and Turkey, also to high values etc. The final pages of the collection ends with various zusammendrucke and material not even listed in Michel. This collection gets better and better on each inspection, requiring time to appreciate the depth of what is here, thoroughly recommended for a dealer.

2368 ★○ Germany, 19th Century Locals, an Old Time Accumulation. A very interesting range of material both mint and used of several 100s of stamps, housed in a very battered stockbook. A quick count between 700-800 stamps, difficult to know exactly as it is stacked stamp on stamp, revealing a little of each. As far as we can see this is a representation "A-Z", ie Altona to Zwickau, no area has excessive duplication and the overwhelming majority is one of a kind and from what we can tell, in complete series. To give you an idea of the diversity present, we have noticed Ayolda, Bergedorf, Bochum, Bockenheim, Brunswick, Dresden, Essen, Goerlitz, Hamburg, Leipzig, Luebeck, Magdaburg, Mainz, Mannheim, Pforzheim, Rostock, Strasburg, Stuttgart, Wiesbaden and many others. Some of the designs are particularly attractive and well executed for example the rhomboid Mercury embossing types of Bochum, the triangular Bergedorf, the monarchical arms of Essen, the country scenes of old time Frankfurt, the ships of Luebeck, the Cologne ornate frame types adopted from the Great Britain 1887 definitive issues, the horse and rider types of Elberfeld etc etc. All of these local stamps types have been seen selling on Ebay for prices \$10-\$20++ each! This is a must-sell instruction and therefore highly recommended for a dealer. Ideal for either stamp show or internet marketing, please view, much more here than described.

- 2409 S Haiti, Archival Holding.** Over 500 mint never hinged specimen stamps, housed in 2 volumes, highly attractive regular and back of the book issues, often with only 1 sheet of specimens printed in the first place, making these particularly tough to find today. This represents a run of printings starting with the 1890 president Augustin Simon portraits (#52/66), followed by the postage dues of 1898 (#J1/J4), again with further printings intended for the handstamps of 1902, as well as the 1906 postage dues (#J10/J13). Then the 1906/13 pictorials series of 20 with distinct shades on the different printing runs, as well as a complete series of 12 imperfs on a 1908 printing, the presidents with centers in black including a 1914 "exterieur" type series of 13 that were never released due to theft in transit from the printers! There are many more series here into the 1950s including the airposts from the first issues onwards, all in the same mint never hinged pristine quality as printed. The colors are hardly exposed to light and there are often 2 series with subtle differences of the overprints, etc. Ideal for a specialised collector or any dealer of this area, as this has great potential to be broken down and sold item for item, very profitably, on eBay. - 2474 ★○ Montenegro, Almost Complete From Classics Through To Both Italian and German Occupations.** An important stamp and postal history collection. This represents a very comprehensive range of classics, with hardly any empty spaces, from the first issues of 1874 onwards through to the early 20th century, followed by an extensive range of the occupations. The latter was bought intact through the estate of the Egen family, the Ortskommandantur of Cetinje, Montenegro under German occupation with scarce stamps accompanied by letters, photographs and documents, spanning a period from 1943 to his death in action in November 1944. Probably the best item is a cover addressed to Egen himself franked by the 1943 "Nationaler Verwaltungsausschuss" overprints 50cts brown, 1L ultra and 2L rose pair sent from Njegusi 16.1.44 to Cetinje with arrival postmarks 19.1.44 and 19.1.45 with the latter error of date crossed out in blue crayon. These issues are only cataloged in Michel as a set on cover, however since covers values of any denominations are so seldom found on cover as here, a recent certificate was obtained by the expert for Montenegro Dr Brunel and now accompanies this very scarce cover, probably unique. There are dozens of more stamps, on piece, including some Italian occupation overprints, as well as further 1943 German issues with the overprints on King Peter heads, including the 10L and 20L ultra both with two examples and with constant varieties such as the italic "i" in "Militaer" on 1L surcharge, also the broken "a" in "Verwaltung" on upper stamps in pairs of the 2L and 5L surcharges respectively, etc. These are followed by the large pictorial types including the 25cts pair, the 1.25L with 50cts together on piece together with the rare 5L red on orange used, plus 2L pair and the 1L and 5L airposts etc - there are only a handful in existence of the 5L red on orange used. There is also much important collateral here with primary sources reflecting the last days of the war for Montenegro. This collection of stamps, postal history and collateral must be studied unhurriedly to appreciate this absorbing lot. Do not miss viewing and enjoying this opportunity. Estimate \$5,000 - 7,500
- 2475 ★○ Montenegro, Extraordinary Revenues Collection.** Montenegro with about 300 stamps, starting in 1881 through to the WWI Austrian occupations and on to the WWII Italian occupations. Highlights include Prince Nicholas type general revenues series of 17 denominations all categorised by the six different perf varieties. Then the

- colorful larger general revenues with 15 denominations of 1904, the 1907 50k mint and used and 1910 series of 9 nearly complete mint never hinged and the 6p and 10p also used etc. Further Prince Nicholas types this time with 1909 commemorative overprints, the new coat of arms design of 1912 including the Austrian occupations with 1916/18 "militar-verwaltung in Montenegro" overprints high and center both on issues with and without watermarks, leading on to the 1942 "Governatorato del Montenegro" lire surcharges on local issues for the Italian occupation. Also present are studies of the unissued types of Prince Nicholas in exile, WWI, with and without "free Montenegro" overprints and the postage dues, as well as the 1905 "constitution" overprints with many kinds of errors on singles and blocks of four, categorised by a table written out by the collector listing the different types. An eye-catching, well researched collection of these often hard to find revenues, a collection the likes of which is seldom seen on the market today. Try to find these again in collection format. Please study the scans to appreciate the depth of what is here.
Estimate \$1,000 - 1,500

There is also an interesting example of the non-Scott listed 1917 2p brown imperf for the government in exile in Italy, showing blue Slobodna Cerna Gora overprint, double reading up and down, mint never hinged etc. Ideal for the specialist dealer or collection, well worth spending time on.

Also at the back of the book are excellent Turkey in Asia, Russian Post Offices in the Levant including 1913 Royal Portraits complete mint (#213/227), German POs in the Turkey, etc, leading on to an extensive study of shades, perforations, postmarks, etc. from 1865 onwards including much in multiple format including the different settings. Beginning with the 1951 first series souvenir booklet of South Vietnam (up to Scott #13), followed by another booklet with 20 of the 1952 Red Cross semi-postal issue (Scott #B1), then the 1954 crown prince series mint never hinged (Scott #20/26) etc. Then another interesting part of this holding, the 1945/46 Viet Minh provisional overprint stamps of Indochina, seemingly complete including one of the scarcest issue the "viet nam dan chau Congo hoa" and "buu chinh" on 25cts blue rice planter with both types of overprint mint never hinged (#1L14, #1L14a), plus another extraordinary error, again not mentioned in Scott on "doc-lap tu-do hanh-phuc buu-chinh" on the 4cts Doumer pair, with the right-hand stamp having the line "hanh-phuc" inverted, se-tenant. These issues run all the way through to the 1948 Ho Chi Minh types for the embryonic North Vietnam again with much scarce material, for example the so called tissue paper mint and used (#1L62/1L63), along with the scarce 1956 50 dong surcharge also both mint (x2) and used (#50), leading on to the Democratic Republic with a very strong showing, including leaders with flags series complete mint x 2 (#6/8), the 1954 surcharges with four different types (#12,13, 13var, 14), as well as mint with all the overprint color permutations on the 10d on 100d and 20d on 300d (#13,14 vars), even multiples including the 10d and 100d inverted overprint pair and the 20d on 200d block of four, followed by the Dien Phu series complete mint (#17/19), the 5d official surcharge mint (#07), the land reforms inc block of 4, the Cu Chinh Lan officials complete mint (#O10/O16), the government series(#28/31), box surcharges again including those not listed in Scott, further souvenir sheets, progressive color trials, unissued designs, etc. etc. A highly recommended viewing for the specialist, a most important holding of this increasingly popular area. 2745 ★○☒ Worldwide Topicals, Space, One Man's Collection, a Huge Estate Offered Intact As Received. Filling up one man's shelf and now in many boxes, this represents a lifetime achievement of collecting anything connected with space, as well as parallel exploration via balloon, rockets etc. There are over two dozen volumes, virtually all one of a kind more often than not, filled to capacity. This is without considering his Apollo flights that are written up on a separate stack of album leaves from the ill fated Apollo I onwards, nearly 2 faint high! Often this postal history is incorporated into the stamp collection but there are also 1000s of covers - as we can see from our random search without duplication - ranging from attractive silk cachets, postal stationery, aerogrammes etc, definitely worldwide in scope. There is also collateral including a range of different embroidered space emblems, shoulder patches etc, also autographs Russian as well as American including a handwritten note from the late and great Neil Armstrong, as well as other separate items from Michael Collins, Buzz Aldrin, Charles Conrad etc etc. There is plenty of stuff here that we have never seen before. Please note some of the countries present apart from the more obvious US/Russia space race is French Colonies in general, British Commonwealth including Antigua, Ascension onwards, through to Europe with Germany both East and West, Bulgaria, Czechoslovakia, Denmark, Hungary, Poland, Romania to name but a few. More often than not, so much is chronologically written up within the diverse scope of the collections. There is also a very good "work in progress" holding representing material that he was waiting to incorporate into his various main categories within the space theme. We have also seen pioneer space exploration including the 1933 Russian stratosphere series, covers with unusual Netherlands "aerotorpedo" postal history 1933 and further postal history with scarce parachute cover 1935, followed by the

Polish purple miniature sheet of 1938, as well as late 1930s GB rocket coronation labels KGVI, through the 40s inc the first issue of *The Rocket* of June 1946 postmark with Dutch Royal emblem and globe with wing marginal mauve Ruimtevaart Studio neatly tied by the fancy cancel etc. Also seen torpedo including Zucker 1933 and similar 1930s fascinating interrupted Rocket Flight with Sangatte from France accompanied by both sower definitives and rocket labels etc. Virtually everything else here conceivable including better Far East, particularly noted is the North Vietnam including scarce imperfs apparently very sought after today, among other areas such as Mongolia, China etc. Even the US has the iconic missing flag with the famous Neil Armstrong first man on the moon on cover in pair juxtaposed with and without flag etc etc. This extraordinary lifetime's work is from the estate of R. Crire and is a must view for anybody interested in this area. Outstanding and diverse with so much more here to discover, highly recommended.
