Crown Casino VIP Program

The loyalty program in SkyCrown Casino is presented in the form of a luxurious 10-tier club. It is open only once you make your first deposit with the gambling site. Some of the VIP levels can be attained through comp points that you earn in the casino for every \$15 staked with real money. Of course, these comp points can also be redeemed for cash, and the rate at which the conversion is done increases with each VIP level. **VIP Rewards** The VIP program avails bonus credit and free spin as some of the incentives that are given to the clients. For instance, Level 1 will give you \$15 and 25 spins for free; Level 10 offers \$750 and 150 spins. The most attractive offer of this VIP program is that all the bonus credits are cash without any wagering conditions.
